ORIGIN: cross of Golden Delicious and Reinette Clochard, France

- Breeder: INRA
- Licence holder: CEP Innovation

PICKING DATE: 2 weeks after Golden Delicious; better picked yellow in 2 or 3 picks.

FRUIT SIZE (mm):

BLOSSOM DATE: average to late

POLLINATED BY:

- Golden Delicious, Gala, Red Delicious, Granny Smith, Elstar
- Malus Golden Gem, Malus INRA® Baugene®, Malus Bauflor

TREE TYPE: type II – the tree has not many branches and produces on old branches. The fruit on one year old branches tends to remain green.

GROWTH: strong (choose M9 Pajam®1 Lancep, M9 T337, M9 NAKB even M9 Pajam®2 Cepiland in weak soils).

PRODUCTIVITY:

- Time till first cropping: average
- Yields: good to very good
- Susceptibility to alternate bearing: low
- Thinning: easy

INRA® BELCHARD® CHANTECLERC

SUSCEPTIBILITY / RESISTANCE TO DISEASES:

- Average susceptibility to scab and mildew
- Susceptible to canker

FRUIT:

- Shape / skin: flat and yellow
- Flesh: crisp and juicy at harvest and becomes melting later
- Taste: very sweet, sharp and excellent flavours

STORAGE:

- Cold storage: February
- CA storage: March

USES:

- Farm shops
- High quality markets
- Very good variety for the South of Loire regions

NOTES:
